This special edition completed with other document such as :

spinning out pdf -

Mon, 06 Aug 2018 23:41:00 GMT - Spinning is the twisting together of drawn-out strands of fibers to form yarn, and is a major part of the textile industry. The yarn is then used to create textiles, which are then used to make clothing and many other products. There are several industrial processes available to spin yarn, as well as hand-spinning techniques where the fiber is drawn out, twisted, and wound onto a bobbin

Spinning (textiles) - Wikipedia -

Wed, 08 Aug 2018 09:12:00 GMT - A spinning wheel is a device for spinning thread or yarn from natural or synthetic fibres. Spinning wheels were first used in India, between 500 and 1000 A.D. Spinning machinery, such as the spinning jenny and spinning frame, displaced the spinning wheel during the Industrial Revolution
