Wed, 18 Jul 2018 14:24:00 GMT - An Introduction to Space, Time, and Gravity Marc Favata Department of Astronomy Cornell University Ithaca, NY 14853 . 2 Relativity: Crazy predictions Relativity replaces our ideas about space and time with something new: spacetime! We will be forced to think about measurements and motion more carefully.

Tue, 31 Jul 2018 16:31:00 GMT - On the Origin of Gravity and the Laws of Newton Erik Verlinde1 ... space emerges together with gravity. ... The origin of gravity, whatever it is, should therefore also naturally explain why this force appears the way it does, and obeys Newton law of gravitation. In fact, when space is emergent, also the other

- By implementing artificial gravity, space travelers would never have to experience weightlessness or the associated side effects. Especially in a modern-day six-month journey to Mars , exposure to artificial gravity is suggested in either a continuous or intermittent form to prevent extreme debilitation to the astronauts during travel.
