Evaluation of Acute Abdominal Pain in Adults -

Fri, 12 Oct 2018 08:31:00 GMT - Pain is a direct or indirect consequence of several diseases. However patients with moderate to severe pain are often under-treated in both developing and developed countries because opioids, which are the mainstay of pain relief in such cases, are mostly inaccessible.

Delphi Study WHO Pain Guidelines -

Fri, 12 Oct 2018 06:15:00 GMT - Low back pain usually involves muscle spasm of the supportive muscles along the spine. Also, pain, numbness and tingling in the buttocks or lower extremity can be related to the back. There are multiple causes of low back pain (see below). Prevention of low back pain is extremely important, as symptoms can recur on more than one occasion.

COMMON CAUSES Age. •Wear and tear•
