Sat, 23 Jun 2018 23:57:00 GMT - The Game of Life, also known simply as Life, is a cellular automaton devised by the British mathematician John Horton Conway in 1970.. The game is a zero-player game, meaning that its evolution is determined by its initial state, requiring no further input. One interacts with the Game of Life by creating an initial configuration and observing how it evolves, or, for advanced players, by ...

Sat, 11 Aug 2018 06:53:00 GMT - What's on this page? I'm interested in producing complexity out of simple parts. This page contains bookmarks that I collected while working on games since 1990; I did not write most of the content linked from here. As a result the set of links here reflects the types of things I needed to know: only a few specific topics (not everything related to game programming), general ideas instead ...
