Thu, 23 Jun 2016 17:16:00 GMT - Melting, or fusion, is a physical process that results in the phase transition of a substance from a solid to a liquid. This occurs when the internal energy of the solid increases, typically by the application of heat or pressure, which increases the substance's temperature to the melting point.

Wed, 04 Apr 2018 23:59:00 GMT - Hello folks! I made this paper snowman last year and thought it would be funny to make a melting version (inspired by these biscuits!). It's been 3 or 4 years since we have had a good covering of snow in the South West of England so I have my fingers crossed for some this year!
